Education

SRM Institute of Science and Technology, Delhi-NCR

2023 – 2027

B.Tech, Computer Science and Engineering; CGPA: 8.2

Coursework: Data Structures & Algorithms, DBMS, Computer Networks, Software Engineering, OOPS, Web Technologies

Experience

AI / GenAI Developer Intern – DigitalPRO IT Solutions (*in-office*)

Nov 2025 – Jan 2026

- Architected and deployed an end-to-end **RAG pipeline** for an enterprise AI-based learning and knowledge support system, enabling high-accuracy syllabus and document querying.
- Integrated **offline/local LLMs** to optimize inference speed and significantly reduce operational infrastructure costs.
- Processed structured and unstructured educational content into high-dimensional vector embeddings, enabling efficient semantic search via vector databases.
- Engineered RESTful APIs and backend microservices using **FastAPI** and Python; benchmarked and optimized retrieval accuracy, response latency and generation quality.

Frontend Engineer Intern – Synclovis (*remote*)

Jun 2025 – Jul 2025

- Engineered 10+ production-ready pages and reusable UI components using **Next.js** (SSR/SSG) and **React.js**, improving site performance scores and SEO rankings.
- Optimized Core Web Vitals (LCP, CLS, FID) via code splitting, lazy loading and image optimization, reducing average page load time by **40%**.

Projects

Gita Mentor AI – AI Spiritual Chatbot | *Next.js, FastAPI, Docker, RAG, FAISS, Ollama*

[GitHub](#)

- Built a full-stack AI mentor powered by a **local RAG pipeline** (Ollama + FAISS + Sentence Transformers) for semantic verse retrieval, eliminating all external API dependencies.
- Designed the retrieval and embedding pipeline for semantic search across a 20-chapter verse corpus; containerized the full stack with Docker and a FastAPI backend.

AI Smart Expense Tracker | *React, Node.js, Express, MongoDB, Gemini API*

[GitHub](#)

- Developed a full-stack expense tracker integrating the **Gemini API** to generate data-driven spending insights and category suggestions from transaction data.
- Built real-time analytics dashboards with automated monthly budget alerts across 200+ categories; optimized MongoDB queries and configured CI/CD via GitHub Actions, cutting deployment time by **60%**.

AI Chat Portfolio | *Next.js, TypeScript, FastAPI, Groq, Server-Sent Events*

[Live](#) | [GitHub](#)

- Built and deployed an AI version of myself that answers recruiters' questions, streaming replies over **SSE** from FastAPI and using **LLM tool calls** to render project and certification cards; answers grounded in one JSON profile, with per-IP rate limiting.

Research Publication

An Explainable AI Framework for Crop Failure Identification

Under Review, 2025

- Designed a multi-modal **XAI** framework applying **SHAP** and **LIME** to produce interpretable, model-agnostic explanations for crop failure predictions, translated into actionable insights for non-technical stakeholders.

Technical Skills

Languages: Python, SQL, Java, JavaScript, TypeScript

AI/ML & GenAI: RAG, LangChain, FAISS, Ollama, Sentence Transformers, Hugging Face, SHAP, LIME, Explainable AI (XAI)

Frameworks & Tools: React.js, Next.js, Node.js, Express.js, FastAPI, REST APIs, Git, Docker, CI/CD Pipelines

Databases & Cloud: MongoDB, MySQL, AWS (EC2, S3), Jenkins, Vector Databases

Certifications

AWS Certified Cloud Practitioner – Amazon Web Services

Jul 2026

AWS Educate: Introduction to Generative AI – Amazon Web Services

Jul 2026

Natural Language Processing (12-week course) – NPTEL, IIT Kharagpur

Jan – Apr 2026

Business Analysis & Process Management; Business Analysis Using Spreadsheets – Coursera

Aug 2026

Java (Basic) – HackerRank

Oct 2024

Open Source, Leadership & Volunteering

- Open Source:** Contributed to **Supabase**, an open-source Postgres development platform, alongside 11+ public repositories showcasing full-stack and AI projects.
- NSS Management Lead**, nameSpace (formerly NSS – SRM Delhi-NCR), Sep 2024 – Present: Directed 100+ volunteers across social initiatives and technical events, contributing to a 25% increase in student participation.
- PR Co-Lead**, CSI Tech Club, 2024: Directed promotional campaigns for technical workshops and hackathons, driving a 30% increase in event registrations.
- Volunteer**, Mayank Foundation: Coordinated tree plantation drives and managed on-ground logistics.
